

Cryogenic Accessories

Helpful equipment for use with Crane Cryogenics™ Piping and Dewars

Transfer Hoses

Vacuum Jacketed, transfer lines with standard CGA 295 end fittings. Available in stock in lengths of 4', 6', 8' and 10' and inner diameters of 1/4", 3/8" and 1/2".

Cryo Gloves

Comfortable, breathable, lightweight, water resistant gloves. Offer superior thermal protection, excellent dexterity and a stay dry lining. Not intended for immersion in cryogenic liquids. Available in Large and XL Mid Arm Length

Cryo Apron

Comfortable, lightweight, breathable, waterproof aprons. Provide warmth and splash protection for torso and legs. Adjustable straps at neck and waist; side release buckles for quick on and off. Available in 24" x 36" and 24" x 42".

Roller Bases

Sturdy roller base designed to easily move our 25, 35, 50 and 90 liter dewars around your laboratory or plant.

Withdrawal Devices:

Our liquid withdrawal devices allow you to dispense liquid nitrogen from our standard lab dewars without lifting and pouring. When the device is installed the dewar builds internal pressure which is then used to dispense the liquid. Complete with dual safety valves, pressure gauge and safety straps.

Dippers

This 100 ml dipper is ideal for collecting small volumes of liquid cryogen. Constructed of stainless steel for long life and durability.

Face Shields

Protect your face and eyes while transferring liquid cryogen. High-performance thermoplastic crown w/ 9" x 14-1/2" molded propionate window.

Technifab manufactures and installs vacuum jacketed pipe, transfer hoses, dewars, valves, and other cryogenic equipment. We also provide the industry leading warranty and service to back it up. Contact us to
